

Yorel **Integrated** Solutions, Inc.**Join Yorel for an Exclusive,  
Invitation Only, CIO  
Roundtable & Lunch****Thursday, April 23, 2009****12:00pm – 2:30pm****at the New NetApp Executive  
Briefing Center**

Today, CIOs face a number of complex challenges. Join us for an open discussion on decreasing costs and increasing efficiency and service levels. Our special guest speaker, Rich Clifton, will share all the ways in which NetApp is offering solutions to solve these difficult issues and how NetApp solutions have helped other CIOs do more with less.

**Rich Clifton**

Senior Vice President and General Manager,  
Virtualization and Grid Infrastructures Business Units

Rich Clifton is leading a corporate-wide initiative to achieve market leadership in data management solutions for virtualized server environments. In this role, he is responsible for driving channel partnerships, marketing programs, alliances, services, and training capabilities. Since joining NetApp in 1999, Clifton has served as Vice President and General Manager of the Networked Storage Business Units, playing a pivotal role in managing relationships with strategic software partners, enterprise applications, and database solutions. He has leveraged market opportunities through aligning and driving products, sales, services, partnerships, and strategic alliances for NetApp.
