

# IBM BLADECENTER JUMPSTART

## Implementing a collapsed infrastructure or performing physical consolidation? Yorel can ease your implementation process.

With a BladeCenter JumpStart from Yorel, you can get your new BladeCenter infrastructure installed, configured and running with ease thanks to Yorel's years of experience. Implement this impressive solution today to see how it can transform your **physical consolidation, hardware migration** and **systems management** needs, **saving you time and money.**

### Objectives:

- Quick and successful implementation of an IBM BladeCenter
- Integration of the BladeCenter with your ethernet and fibre infrastructures
- Complete documentation and hand-off to ensure that your staff is able to manage and maintain all implemented technologies

### Process:

- Install BladeCenter chassis, servers and switch modules
- Management Module training, configuration and backup
- Update BIOS and firmware on chassis components and blade servers
- Assist your staff with installation of operating system on the servers
- Provide knowledge transfer and training on BladeCenter management

### Deliverables:

- All documentation materials for further review within your organization
- Best practices documentation for use during future roll-outs
- Written recommendations and summary notes

### Additional Options:

- Consider Yorel's PowerConvert POC for rapid server migration
- Need enterprise management? Consider Yorel's IBM Director JumpStart
- Yorel consultants can assist with storage integration and boot from SAN
