

VIRTUAL DISASTER RECOVERY WORKSHOP

Are you prepared for a disaster?

Make sure that you have a disaster recovery plan, not just a backup and restoration plan...

Yorel's experience with Virtual Infrastructure and complimentary solutions enables you to reap all of the benefits of a virtual Disaster Recovery plan. Yorel can help you clearly define your requirements, explore your alternatives and form a plan that will **increase availability** and **minimize costs**.

Objectives:

- Thorough discussion of Disaster Recovery needs and capabilities
- DR proof-of-concept using existing VMware implementation
- Explore additional uses and provide strategic recommendations

Process:

- Review existing VMware Infrastructure implementation
- Discuss current Disaster Recovery and Business Continuity objectives
- Demonstrate DR capabilities of VMware VI3 and related technologies dependent on existing VMware VI3 implementation

Deliverables:

- Presentation materials for further review within your organization
- Best practices documentation
- Written recommendations and summary notes

Additional Options:

- Concerns over specific functionality, product or process? We can customize the workshop to meet your specific requirements.
- Don't yet have a virtualization platform? Yorel can ensure that your infrastructure strategy is optimized and complete, starting with a study.
