

YOREL ENTERPRISE SUPPORT FOR VMWARE VIRTUAL INFRASTRUCTURE

Ensure that your Virtual Infrastructure stays at peak performance with proactive Yorel maintenance

With a Yorel Enterprise Support (YES) agreement you can rest assured that your Virtual Infrastructure is being maintained and is working at its **peak performance** levels. Yorel will provide **patches, updates** and performance monitoring for your VMware Virtual Infrastructure, **saving you time and money.**

Objectives:

- Document and publish current configurations of your VMware environment
- Keep all VMware host servers updated with patches and releases
- Ensure that all VMware host servers are running at peak performance
- Advanced VMware configuration based on Yorel and VMware best practices

Process:

- Monthly performance assessments and optimization
- Monthly review of log files, backup processes and system patches
- Quarterly host server firmware updates and asset management
- Quarterly review of VMware Virtual Infrastructure service configurations

Deliverables:

- All documentation and diagrams posted to customized, secure portal
- All services documented for further review within your organization
- Written recommendations and summary notes

Additional Options:

- Need to evaluate a specific VMware functionality or process? We can customize the YES Agreement to meet your specific requirements
- Consultants available for discounted hourly services, at a predetermined rate, in addition to scheduled YES services
