

Yorel Integrated Solutions, Inc.

There's integrity
inside the circle.

What Is **Your** IT Nightmare?

- **Rapid proliferation of Intel servers?**
- **Shrinking backup windows?**
- **Decreasing manageability?**
- **Costs exceeding your budget?**
- **Secure remote access?**
- **Infrastructure that won't scale?**

Attend this free briefing for an open discussion on VMware, Citrix and other leading technologies along with customer testimonials and plenty of time to get answers to your questions. Learn how companies like yours are using today's technologies to achieve cost-effective Server Consolidation, Disaster Recovery, Application Compatibility, OS Migration and more!

HIGHLIGHTS

VMware: In addition to simplified management and instant server provisioning, one of the real advantages to using virtual server technology today is the economies of scale that can be realized with resource sharing. Learn the benefits of utilizing VMware in a Citrix environment which include:

- *Reduced downtime by 10-25%,*
- *Reduced hardware costs by ~50%,*
- *Reduced space, cooling and power requirements by >50%,*
- *Increased productivity with new flexibility*
- *New capabilities for Test/Dev. DR & HA.*

Citrix: Access 4.0 is the next generation of three Citrix product lines: Presentation Server™, Access Gateway™ and Password Manager™. Learn more about the capabilities behind 4.0 that include: SmartAccess, SmoothRoaming, Instant Collaboration, On-Demand Assistance, Robust and Resilient Foundation, End-to-End Visibility, Integrated Identity Management and Secure by Design.

- *Smart Access*
- *SmoothRoaming*
- *Instant Collaboration*
- *On-Demand Assistance*
- *Robust & Resilient Foundation*
- *End-to-End Visibility*
- *Integrated Identity Management*
- *Secure by Design*

IBM: xSeries servers featuring Enterprise X-Architecture provide outstanding availability and price/performance capabilities that help better manage and provision your IT environment.
