- How Desktop Virtualization Affects Datacenter Storage – Why De-Duplication is Important!
- Desktop Virtualization and Business Continuity
- Desktop Virtualization and DR Strategies
- The Green Data Center

### Dates & Locations:

All sessions will begin with a Full Breakfast at 8:30am and will end by 11am.

- November 5<sup>th</sup> – Raleigh, NC – North Ridge Country Club
- November 6<sup>th</sup> – Charlotte, NC - Yorel Executive Briefing Center
- November 11<sup>th</sup> – Greenville, SC - Marriott Hotel

VDI is not a product, it's a Strategy. Yes, there are storage implications and there are multiple ways to do the right thing!

- Centrally lockdown and control virtual desktops.
- Provision new virtual desktops in minutes.
- Automatically shift more computing power to users.
- Dramatically cut operational and downtime costs.

This event will educate you on the pros, cons and what you need to consider while fixing your problems. . . . it may even help you **Go Green!**
