Lower Your Costs and Simplify IT Management with VMware and STORServer

Please Join Us For This Free Seminar!

Rapid proliferation of Intel servers a concern? Is your backup window shrinking? Manageability becoming a nightmare? Are your costs exceeding your budget? Are you in compliance with HIPPA and SOx?

VMware and STORServer technology can help you:

- ◆ Reduce hardware costs by 48%
- ◆ Reduce server space requirements by 50% or more
- ◆ Deploy new development and test servers in minutes, instead of hours or days
- ◆ Reduce your backup window by 50%
- ◆ Reduce your daily storage management time by 75%
- ◆ Reduce downtime by 25-55%

Attend this free seminar for an open discussion on VMware and STORServer technology with customer testimonials and plenty of time to get answers to your questions. Learn how companies like yours are using VMware and STORServer to achieve cost-effective Server Consolidation, Disaster Recovery, Application Compatibility, OS Migration and more! Seating is limited, so register early.
